

>> let's talk about enhancement in child care, students with disabilities. How much money are we investing in this. >> special education? \$6.8 million.

>> \$6.8 million. Is this to entice more facilities to provide slots?

Can it be used for equipment?

Is it build out for enhancement, hiring staff? >> it will ensure we increase the number of slots of in nantz

and toddlers who have special education needs and facilities.

So I will allow for expansion of seats, especially facilities for little learners with education needs and provide interventions

and support for them as they go on their journey to get to kindergarten. >> okay.

So we don't have these slots available -- I guess my question

is are we sure facilities have the capacity to grow to the amount we're providing.

>> tt of school time is arners, can you talk a little

pry swant to thank loery board sassing out and challenging work to improve. >> I want to jump around in this round. I want to talk about federal funding. The project used to support on school-based mental health, that grant is ending but my understanding is that sam sa

still has this grant application

available no --

>> we can discuss further but we

want LEAs for that level of funding.

An infrastructure grant \$9.7 from federal government so

ecosystem of mental health workers.

For us the retention credentialing, bringing in the

workforce is an area we've all youified as need. We do want the funding source
